FOUR GLORIOUS DAYS.

Arrangements for the World's Fair Demonstration in New York.

A Naval Review That Will Be Unprecedented in America.

Plans for the Shore Parade, the Receptions, Banquets and Balls.

April 28—Reception at the City Hall by the Anyor to the officers of the review feet at 2 V. M. Land parade of marines and sallors from the warships.

Arrangements for the great naval demonstration and the various ceremonies attending it, both on land and water, which will absorb the attention of the people of New York during the greater part of the coming week, are greater part of the coming week, are now nearing completion.

The programme for the four days' celebration prior to the departure of the foreign guests for the opening of the Fair at Chicago has practically been decided upon, and all that remains to be done is to perfect the details of the plans which have been laid out with such care and precision.

So far as the regulations governing the movements of the fleet of warships the movements of the fleet of warships for the directs of the fleet during the continuance of the review fleet. Carriages provided by the chamber of Commerce will take the cham

of the warship during the review. The positions assigned to the vessels, according to the present arrangement, will make the column extend from Thirty fourth to Eighty-ninth street, in the North River, which will compel the Ludwig Marsch Had Just Been Acthousands who wish to witness the recused of Embezziement. view to crowd upon the pier and bulk heads between the points mentioned.

To Accommodate the Crowd. These afford only a very limited area, besides being inconvenient and undestrable for many other reasons, not to speak of the danger from excessive crowding, and Mayor Gilroy's Commit-tee has strongly urged that the northern limit of the naval column be changed

Such a change would be a vast im-Such a change would be a vast improvement, for then sightseers could take advantage of the park and bluff which extends all along the Riverside Drive, and thus enable many thousands more people to witness the scene in comfort. Up to the present time, however, the naval officers have not acted upon the suggestion, although it is not too late to make the necessary changes in the regulations, and give the people of the city and the thousands of visitors who will be in town on that day an opportunity to view the ceremonics from the grassy slopes of Riverside Park and the broad avenue that extends all the way along the shore, instead of from the narrow and dirty piers and bulkheads further downtown.

the dynamiter Cushing, which will do duty as a despatch boat. It is also probable that the new unfinished cruiser New York will be anchored at the "turning point" at the northern limit of the column, and the old man-of-war Kearsarge and the Stiletto may be added to the fleet, making eighteen United States warships in all.

Thus far the names of twenty-four foreign warships which will be on hand to take part in the demonstration have
